ABOUT US

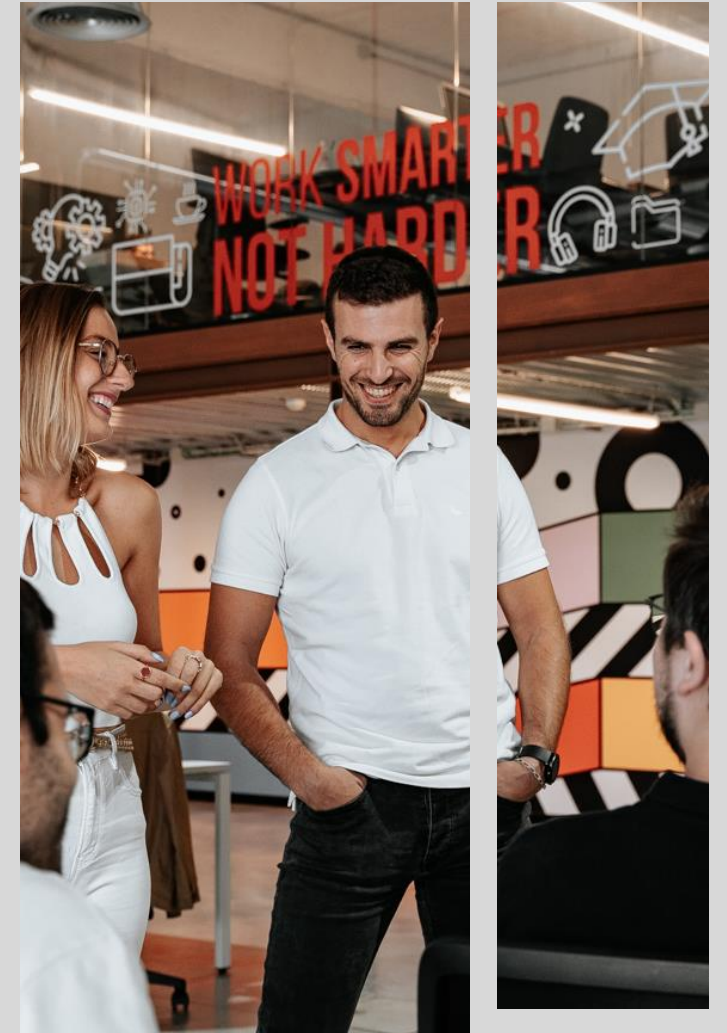

We accelerate digital innovation & integration through technology.

Readiness IT is a multinational company, working for Telecommunication Service providers across the globe.

The company has 10 offices in 8 countries: Portugal, Chile, Peru, New Zealand, Spain, Serbia, Canada, and the USA.

Founded in 2015 by a group of skilled professionals with more than 25 years of experience in the Telecommunication industry, Readiness IT acts as Digital Transformation accelerator, enabling Telco companies to achieve the next generation in business innovation.

System Ninjas are the reason of our success.

BECOME A SYSTEM NINJA

We are looking for young and talented people to recruit and to join our teams!

Most job candidates for System Ninjas have one thing in common:

knowledge in computer programming concepts.

If you have a graduation in Science Computing, Information Technologies, Engineering, Multimedia, Bioengineering, or other expertise in computer programming languages, you may apply.

Although, there are also open positions for Business Managers, Project Managers, Design & Multimedia, Human Resources, and other areas.

Join us!

 What are we looking for

BECOME A SYSTEM NINJA

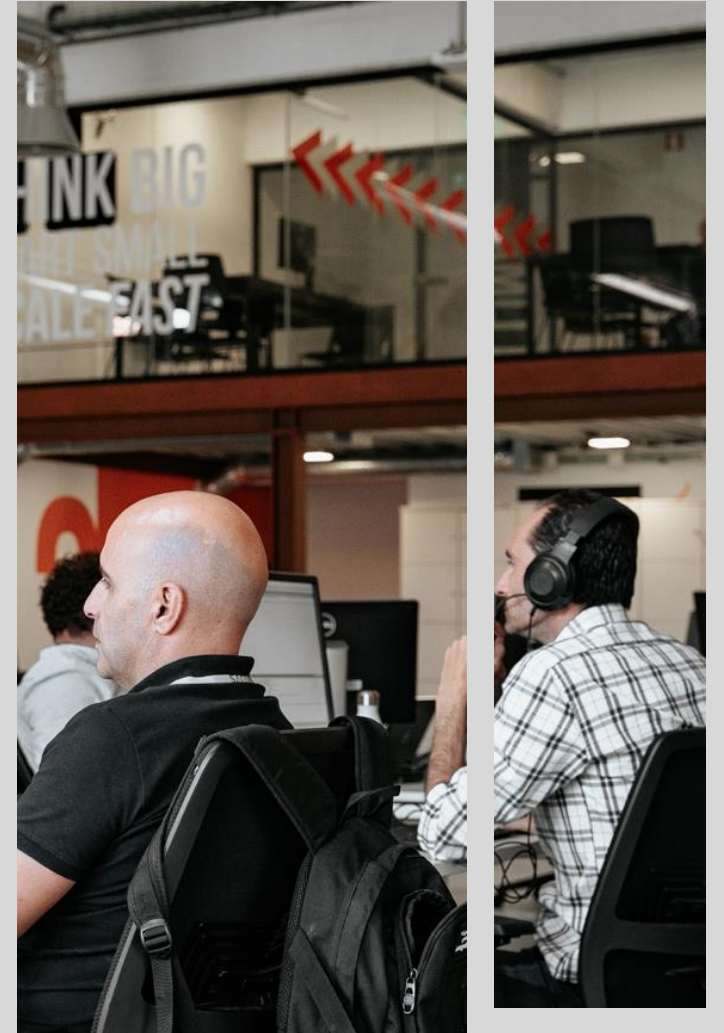

System Ninjas will learn from the best professionals in the market. Programming skills will be learned, practiced and perfected until they become flawless and second nature. Then they are ready and will join a team to work in a real project for clients. Many programming languages and stacks can be learned on the Dojos.

Here you have a few:

Areas of expertise

- **Telco** – Business and Frameworks (Ericsson, Kloudville, AWS...)
- **Low Code** – OutSystems, Salesforce, Appian, Microsoft Apps...
- **Oracle** – Java (Spring), Siebel, ATG...
- **UX/UI Front-end** – React, Angular...
- **Methodologies and tools** – Agile/SCRUM, GIT...
- **Project Experience** – Applying knowledge to real projects.

TESTIMONIALS

TESTIMONIALS

What do our Ninjas have to say?

Since I joined System Ninjas, I have been able to significantly increase my programming skills in a learning/working context. There is a great team spirit shared between everyone and I have felt 100% comfortable working in the company since day one.

MARGARIDA ALMEIDA

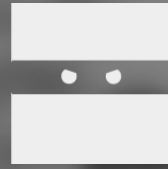

I am loving the opportunity to learn with such skilled and nice people! Every day is a new challenge that keeps pushing the best out of me, and I feel that I've grown a lot since I joined this amazing company.

MARIANA GIL

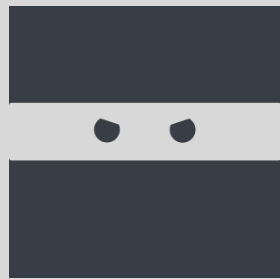

I joined the System Ninjas Dojo and since then I greatly improved my technical skills and work now with amazing professionals that teach me a lot every day.
